

# 1939 Packard 1708 Landalet by Brewster

An update about the cover car on *Side Mount Mirror* issue #2 of 2020: Southern California region member and avid car collector Bruce Meyer was so intrigued by the history of the ex-Marjorie Merriweather Post 1939 Packard that he purchased the car and donated it to the Petersen Automotive Museum. The Museum created a YouTube video mentioning this generous donation. The car is safe and secure at the Museum and will eventually be displayed for the public to enjoy. Efforts are underway to have both it and its companion Packard (1935 1207 Brewster Limousine) displayed at an upcoming Southern California event. If this comes to pass, it will mark a reunion of sorts, since the two cars were last together in 1935. •
